

BUILDING & ELECTRICAL PERMITS:

The Public Works Department administers structural, mechanical, plumbing and electrical permits. We contract our plan review and inspection services to a company called The Building Department, LLC.

The City took over the administration of our building permit program in 1996; this used to be coordinated by Clackamas County. The electrical program was taken over from the County in 2001.

Email our Permit Technician:

Traci Hovda, Deputy City Recorder – hovda@cityofestacada.org

You can also use this e-mail address to reach any of the following inspectors. Please reference a name with the e-mail:

INSPECTION REQUEST LINE: 800.358.8034

Inspection requests must be called in by 8AM for same day inspection.

All permit information provided by this website must be verified by our staff.

Thank you.

CODE COMPLIANCE:

The Code Compliance Officer responds to complaints about nuisances and code violations, such as: property and housing conditions, land use activities, noise or vehicle storage.

The Code Compliance Program is responsible for municipal code compliance and nuisance abatement. The division is housed within the Public Works Department. This program often resolves livability problems within the city. The City accomplishes this through public education about adopted codes and nuisances, emphasis is on voluntary compliance before enforcement, conflict resolution, resource referral and ultimately court-ordered abatement.

Email our Code Enforcement Officer:

Code Compliance Officer – codecompliance@cityofestacada.org

EROSION CONTROL REQUIREMENTS:

The City of Estacada follows the standards as outlined in the Clackamas County – Water Environment Services: Erosion Prevention and Sediment Control Planning and Design Manual, Current Edition.

This manual is available in a .PDF format, for viewing, on-line:
